

HOME OXYGEN THERAPY

# Medical Oxygen Supply Product

HOSPITAL EQUIPMENT

# Oxygen Technology Research Center, OXUS

Oxus promotes the vitality of life through oxygen and realizes its value through technology with the motto "Life, Oxygen and Technology". Our medical oxygen generating technology is at the zenith of such value orientation and is being steadily developed according to a long-term plan. Currently Oxus has the key technical data, manufacturing infrastructure and service know-how which have been accumulated over the years in the field of medical oxygen generating technology. Oxus will be also taking the lead out in the field of oxygen-related health care applications.

A healthy idea for a healthy life! Oxus will keep it.

## Certifications & Patents

Awards and certifications from various countries

Organized quality management

Global Network

CE MDD (Medical Devices Directive) Certification

Korean medical oxygen generator manufacturer

## Core Technologies

### 1. Independent PSA Technology

PSA is the core technology corresponding to the heart of oxygen generator. Oxus, a technology-oriented venture business which started from a research room in Sogang University and was developed through national project, developed its own manufacturing technology for the PSA oxygen generating modules. Our technology has been internationally recognized including the patent license agreement with Delphi Medical in the USA for US patent no. 6,793,719 and 6,811,590 relevant to the core PSA technology. Although such PSA technology becomes common now, the products of Oxus which has long technical development history and know-how are still recognized as a typical brand of oxygen generators from home and abroad.

### 2. Optimized Solutions for Consumer Needs

In order to fit the corporate motto and provide better oxygen generating technology, the Oxus' oxygen technology research center works in parallel with a study on the oxygen analysis and the effect of oxygen breathing on the human activities, which contributes to the higher technology and maturity level of the oxygen generators by field. Also, the research results apply to the products in order to products and services optimized for the customers' needs.

# Oxygen Generator

For Small & Medium sized hospital and Nursing hospital

## RAK-U06M2E

### /RAK-U03M2E

CE 0068  
CE MDD Certified

#### Product safety

- Power failure alarm function
- Low pressure alarm function

#### Oxygen supply efficiency

- Built-in booster(compressor)
- The product turns off automatically when the set pressure reaches 6.5 bar.

#### Maintenance differentiation

Even if one unit fails, the equipment does not turn off.

## Why should you choose Oxus Oxygen Generator?

#### Pros of oxygen generator

- Ease of maintenance
- Cost effective
- Space saving

#### Problems with liquid and gas oxygen

- Hassle of oxygen tank filling and replacement
- Large space occupation
- Danger of high-pressure tank
- Danger of damaging facilities while moving tanks

## Product Detail

Since each units are connected in parallel, problems can be solved with simple unit replacement.

**1,5 Control unit**  
Operate the device and display the status

**2,3,4,6,7,8 Oxygen unit**  
Each unit produces oxygen

**1 Control unit**  
Operate the device and display the status

**2,3,4 Oxygen unit**  
Each unit produces oxygen

Units can be individually turned on/off depending on the amount of oxygen required.

#### Optional Accessory

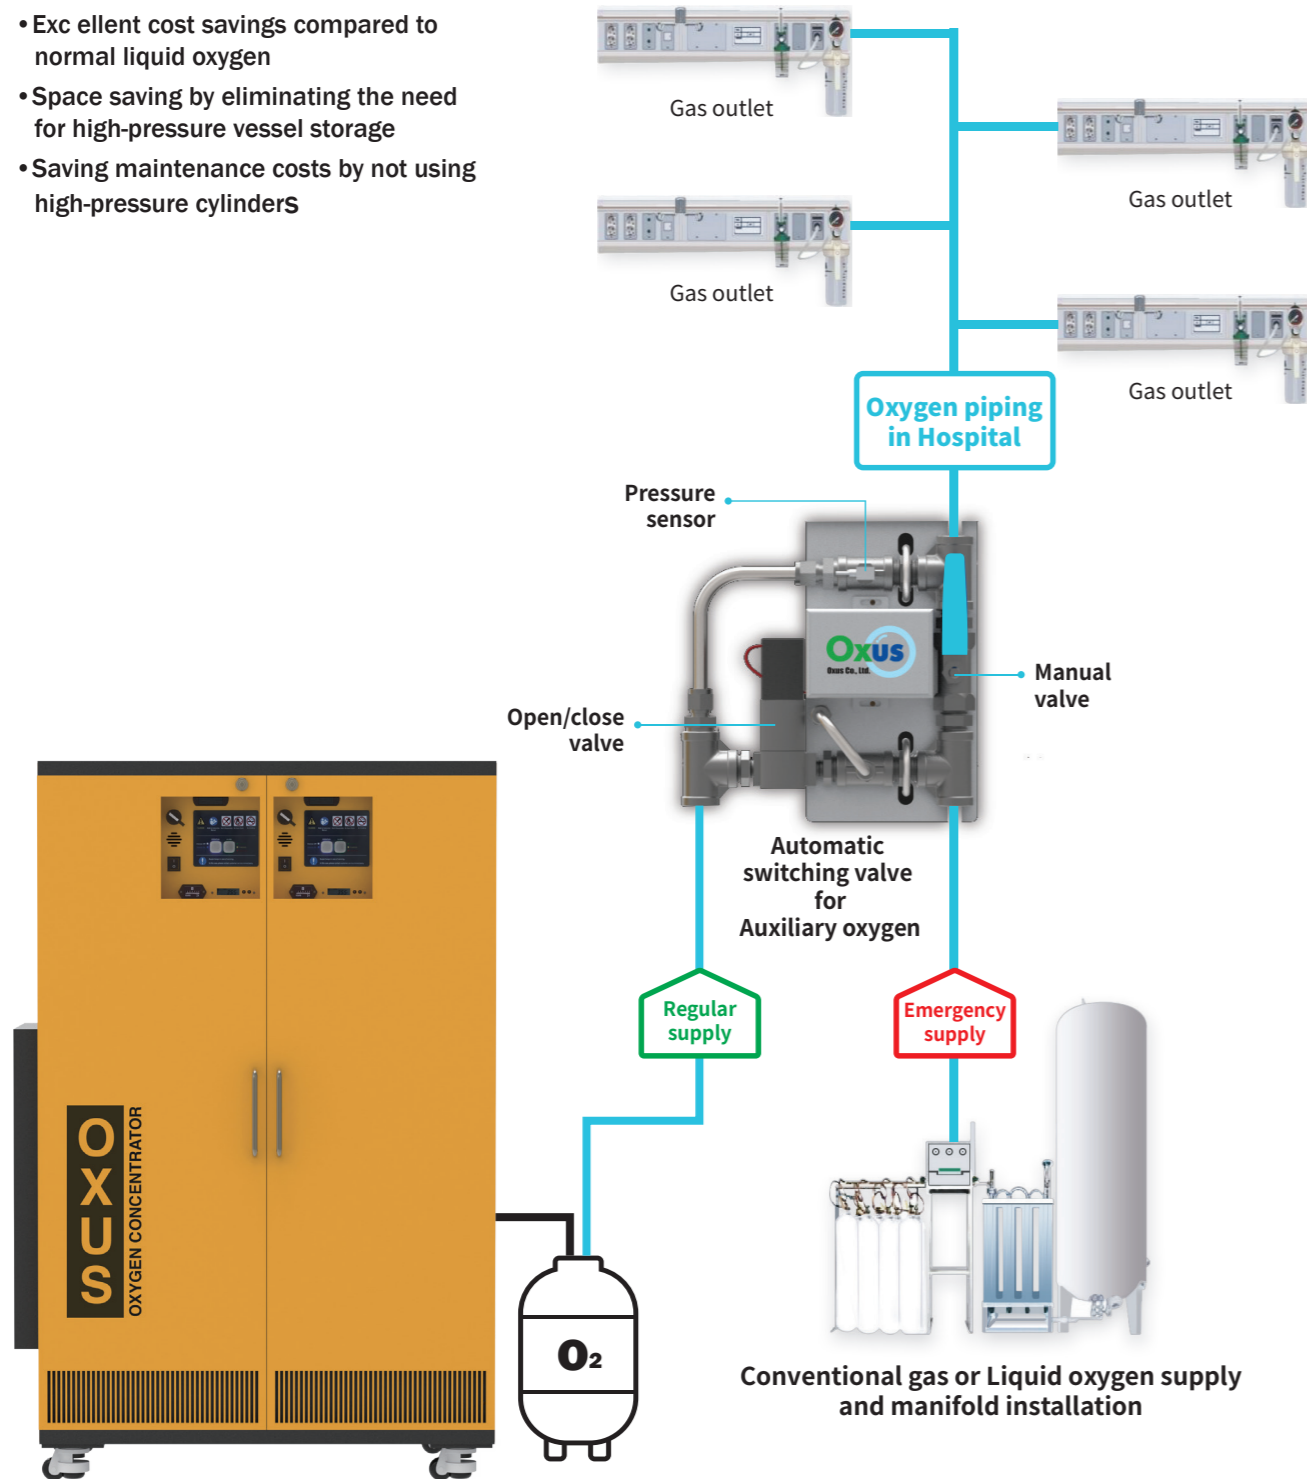

- 1.Oxygen Storage Tank
  - This product requires Oxygen Storage Tank.
  - Minimum tank volume is 100 Liter for 30LPM oxygen output.
  - The picture illustrates 100 + 100 Liter tank arrangement (supplied by Oxus) for 60LPM Model.
  - Any type of tank (oxygen rated above 8 bar) can be used for installation.
2. PC BOX
  - Monitoring system possible

# Medical oxygen supply system

As a system built to replace the continuous supply of liquefied and high-pressure oxygen to the central gas piping system used in medium, large hospitals, and nursing clinics medical oxygen supply system(RAK-Series) can continuously operate and supply oxygen to the central piping system for 24 hours, 365 days a year.

- Uninterrupted oxygen supply with continuous oxygen generation
- Excellent cost savings compared to normal liquid oxygen
- Space saving by eliminating the need for high-pressure vessel storage
- Saving maintenance costs by not using high-pressure cylinders

## RAK-U06M2E

**Total production in one day: 86,400L**  
**Gas oxygen (As for 40L, 120bar): 18 cylinders**

Oxygen Flow	60±3 LPM
Oxygen Purity	93±3%
Oxygen Pressure	Max. 6.5 bar
Voltage(Frequency)	230V (50Hz)
Power Consumption	4.25 KW
Operating Environment	0°C ~ 40°C, 0% ~ 90 %, 1090hPa~800hPa
Noise Level	Max. 70dB
Weight	260kg
Dimension(W x D x H)	960 x 600 x 1,550mm
Electrical protection type	Class1

## RAK-U03M2E

**Total production in one day: 43,200L**  
**Gas oxygen (As for 40L, 120bar): 9 cylinders**

Oxygen Flow	30±3 LPM
Oxygen Purity	93±3%
Oxygen Pressure	Max. 6.5 bar
Voltage(Frequency)	230V (50Hz)
Power Consumption	2.15 KW
Operating Environment	0°C ~ 40°C, 0% ~ 90 %, 1090hPa~800hPa
Noise Level	Max. 70dB
Weight	130kg
Dimension(W x D x H)	480 x 600 x 1,550mm
Electrical protection type	Class1

# Oxygen Concentrator

For Home Oxygen Therapy

## OXUS 502

- Quiet operation provides comfort usage during sleep
- Fine oxygen flow control (0.5L increment)
- Detachable humidifier
- Oxygen purity alarm
- Reduced electricity bills due to low power consumption
- Easy problem identification with diagnosis kit
- Quick parts replacements

### For Users

- Low noise level ( $\leq 60\text{dB}$ )
- High power efficiency (power consumption 265W)

- User-interface has a flowmeter indicator for accurate viewing and adjustment (0.5 liters)
- Warning indicator lights up if the oxygen purity drops below 82%

- ① Power Button
- ② Warning indicator
- ③ Flow rate display
- ④ Flow adjustment button
- ⑤ Label attachment

- Dust filter**  
Easy to clean regularly by users
- HEPA filter**  
Replacement every 5,000 hours

- Simple replacement of bacterial filter**  
Bacteria filter can be replaced by user to provide cleaner oxygen and to decrease the risk of COVID-19

- Totalizer**  
Display of total device use time

- Attached wheels provide ease of movement

## For Providers

- Best choice for a cost-effective device
- Low failure rates
- These features reduce noise complaints and operation costs of product refunds and exchanges

## Components

Oxygen humidifier bottle

Connection tube(30CM)

Extended connection tube(4M)

Nasal oxygen cannula

Humidifier bottle holder

Hose barb

## Product specification

<b>Oxygen Flow</b>	0.5 - 5 LPM
<b>Oxygen Purity</b>	93 ± 3 Vol %
<b>Max Discharge Pressure</b>	35 kPa (0.35 bar)
<b>Noise Level</b>	≤ 60dB
<b>Voltage(Frequency)</b>	230V (50Hz)
<b>Power Consumption</b>	265W
<b>Dimension (W x D x H)</b>	273 x 392 x 496mm
<b>Weight</b>	17kg
<b>Operating Environment</b>	Temperature 5°C to 40°C Humidity 15% to 93% Atmospheric pressure 700~1,060 hPa (700~1,060 mbar)

Life, Oxygen and Technology
