The most important value for us is belief and trust.

What we would like to leave as the profit is healthy life of more people.

Obtaining customers' belief and trust is the most important principle for our corporate management. "Belief and trust" not only means our business management is honest and transparent in every way, but also makes our customer use any of our products safely without worries. Based upon this business philosophy, we will continuously upkeep our mission as a companion that protects health of our customers through appropriate business growth.

Expand to Overseas Business

By licensing-out new drugs, incrementally modified drugs, and high-value original drugs such as Pelubi & Pelubi CR Tab.(NSAIDs), Megex-I Suspension(anti-cancer supplement), and Privituss Suspension(antitussive) to large pharmaceutical markets like China, Daewon Pharm is preparing another rapid growth. We are exporting technologies and differentiated pharmaceutical products, based on our distinctive platform technology. We are also moving forward to export medical devices like hearing aids.

We are making a bright and happy world with Delight Hearing Aid.

Delight, a subsidiary company specialized in hearing aid business, is delivering joy and happiness of listening beautiful sounds to the hard of hearing, based on endless technology research and customer-centered service. Delight has been improving domestic hearing aid technology further with professionalized R&D and self-production capability, and now moving towards the world with improved products and services.
