

## Ordering Information

No.	Model Name	Catheter	Length	Guide Wire	Length
1	SWVGDC-1250A	IVGDC1250A	1250	IVGW-1700-085	1700
2	SWVGDC-900A	IVGDC900A	900		
3	SWVGDC-650A	IVGDC650A	650		
4	SWVGDC-1250B	IVGDC1250B	1250		
5	SWVGDC-900B	IVGDC900B	900		
6	SWVGDC-650B	IVGDC650B	650		

### 1 SWVGDC-1250A, SWVGDC-900A, SWVGDC-650A

### 2 SWVGDC-1250B, SWVGDC-900B, SWVGDC-650B

## Diameter Option

**NAVISEL**  
Intravascular Steerable Guiding Catheter

The NAVISEL is a Intravascular Steerable Guiding Catheter with a steerable/articulating distal tip. Articulation is achieved via a steering dial at the proximal handle which allows the operator to manipulate the tip in opposing directions. Once the direction of steerable tip is determined, the steering dial lock may be used for maintaining the intended direction. This product can be used without replacing the catheter, minimizing risk and vessel damage.

- 1 Braiding wire tube**  
Flexible & Easy to enter
- 2 PTFE inner layer**  
Smooth passage
- 3 Radiopaque & Soft atraumatic**  
Distinct images and placement accuracy

### Close-up of Steerable tip

#### Radiopaque Marker

- Radiopaque tip marker enhances visibility

### Steering Tip

- Curve retention for accurate catheter placement
- Steerable tip minimizes your need for multiple fixed curves and catheter exchanges.

### Steering Lock

- Once shaped, the tip can be locked in position

### Guide Wire
